Seeking the balance between power consumption and performance

Thursday, 1 December 2022 11:45 (20 minutes)

Seeking the balance between power consumption and performance. Is sacrificing a little bit of performance while considerably reducing the power consumption acceptable for research? A short study of the work that was done at the University of Cambridge with our labs on reducing power consumption while maintaining acceptable performance numbers, resulting in a initial listing in the top10 in the June 2022 listing.
