HPC Education Birds-of-a-Feather (BoF)

Thursday, 1 December 2022 13:45 (1 hour)

This session will bring members of the HPC Education community together to discuss the establishment of a sustainable HPC Education Community of Practice for the African region. The session will identify the needs of members in the community through an interactive discussion, where members can share questions, ideas, and suggestions. The session will conclude with practical next steps for the establishment of a sustainable African HPC Education community, and the opportunity for community members to share resources, collaborate, and grow the impact of HPC Education in Africa.

Anyone involved in HPC Education / training and/or who want to establish a formal Community of Practice is encouraged to participate in this session.
