Data Management on HPC Workloads: Accelerating outcomes while preserving data for future examination and collaboration

Wednesday, 6 December 2023 14:30 (20 minutes)

Provide attendees with a detailed view of the Long-Term Digital Archive solution implemented at CSIR.

This solution enables CSIR to provide a high performance, highly scalable, integrated archive ecosystem that allows internal departments and external organisations to collaborate, archive and preserve data driven research in support of National Science and Strategic priorities.

The importance of arriving at the right data management strategy becomes paramount as the size of HPC datasets continues its inexorable march towards zettabytes.
