Intel AI in Action at the 2024 Olympics: Deployments and Benefits for your Business

Wednesday, 4 December 2024 09:00 (45 minutes)

Intel has already put a lot of “AI in action”. Come and hear about some of the use cases that were deployed at scale during the Paris 2024 Olympic and Paralympic Games. You will be blown away with the capabilities and their results ! And the session will also deliver some details about the technologies and features of the Intel ingredients that are in these use case solutions, as well as look at the new Intel AI ingredients and solutions.
