HPC Education BoF

The session will provide an opportunity for HPC Educators to share their plans, challenges, and ideas for HPC education curricula, tools, and resources with the broader HPC Educator community.

Prepared talks include:

- OpenHPC virtual lab overview and feedback - an on-demand localised HPC development platform
- Overview of the University of the Witwatersrand SIG HPC
- Overview of a local SA University's new HPC course
- A curriculum for SysAdmin training
- SIGHPC Education Chapter
