

The 24th Information Security for South Africa Conference
hosted as a special session of the 2025 CHPC Annual National Conference
Century City Conference Centre (CCCC), Cape Town, South Africa, 1 – 2 Dec 2025

The aim of the 2025 international ISSA conference is to bring together national and international researchers, academics, students and industry practitioners in the broader fields of Cyber security, Cyber security & AI, Information Security, Computer Security, Network Security and Digital Forensics. The ISSA 2025 conference provides information security practitioners and researchers worldwide with the opportunity to share their knowledge and research results with their peers. The objectives of the conference are defined as follows:

- Sharing of knowledge, experience, and best practice
- Promoting networking and business opportunities
- Encouraging the research and study of information security
- Supporting the development of a professional information security community
- Assisting self-development
- Providing a forum for education, knowledge transfer, professional development, and development of new skills
- Promoting best practice in information security and its application in Southern Africa
- Facilitating the meeting of diverse cultures to share and learn from each other in the quest for safer information systems

The ISSA 2025 conference is co-organised by the Department Computer Science of the University of Pretoria, Centre for High Performance Computing (CHPC), Data Intensive Research Initiative of South Africa (DIRISA) and South African National Research Network (SANReN). ISSA runs as a parallel stream at the well-established annual Centre for High Performance Computing Conference: (<https://chpcconf.co.za/>).

PAPER REVIEW PROCESS: All submissions are double-blind reviewed by at least three subject expert reviewers. Papers are reviewed on the basis that they are written by the authors themselves (no GenAI tools), they do not contain plagiarised materials and have not been submitted elsewhere. Accepted and registered papers from the 2025 ISSA conference will be published by Springer Communications in Computer and Information Science (CCIS). CCIS is abstracted/indexed in DBLP, Google Scholar, EI-Compendex, Mathematical Reviews, SCImago, Scopus.

REGISTRATION: Registration details is available at: <https://chpcconf.co.za/>
