# The Evolving Coexistence of HPC and AI — The US Leadership Class Computing Facility and Other Developments.

*Wednesday, 3 December 2025 18:00 (45 minutes)*

This talk will discuss the fast evolving symbiosis between HPC and AI from both a market and scientific point of view, with a particular focus on how this manifests in the US National Science Foundation plans for the new Horizon system, part of the Leadership Class Computing Facility, and other developments around the world this year in HPC.
