KEYNOTE 1: New Era in HPC

Monday, 3 December 2018 09:45 (45 minutes)

In this keynote presentation, Trish will discuss the changing landscape of high performance computing, key trends, and the convergence of HPC-AI-HPDA that is transforming our industry and will fuel HPC to fulfill its potential as a scientific tool for insight and innovation. Trish will highlight not only key forces driving this shift but discuss how this transformation requires a fundamental paradigm shift and is opening up unprecedented opportunities for HPC.

Presenter Biography

Primary author: Ms DAMKROGER, Trish (intel)

Presenter: Ms DAMKROGER, Trish (intel)

Session Classification: KEYNOTE 1: Ms Patricia Damkroger, Intel

Track Classification: HPC Technology
