

Contribution ID: 14

Type: **Invited talk (plenary/keynote)**

Computational Modeling to support the development of biosensing devices

Monday, 4 December 2017 11:00 (30 minutes)

HPC content

Amber, material Studio, schrodinger

Primary author: Prof. BISETTY, Krishna (Department of Chemistry, Durban University of Technology, Durban)

Co-authors: Prof. TIWARI, Ashutosh (Biosensors and Bioelectronics Centre, Department of Physics, Chemistry and Biology, IFM Linköping University, 58183 Linköping, Sweden); Ms ATHIKA, Darumas Putri (Department of Chemistry, Durban University of Technology, Durban); Dr SUVARDHAN, Kanchi (Department of Chemistry, Durban University of Technology, Durban); Mr MYALOWENKOSI, Sabela (Department of Chemistry, Durban University of Technology, Durban); Mr BAYU, Tri Murti (Department of Chemistry, Durban University of Technology, Durban)

Presenter: Prof. BISETTY, Krishna (Department of Chemistry, Durban University of Technology, Durban)

Session Classification: Chemistry

Track Classification: Computational Chemistry
