

2017 CHPC National Conference

Wednesday 06 December 2017

BioInformatics: I - Satre (11:00-12:30)

-Conveners: Fourie Joubert

time	[id] title	presenter
11:00	[69] H3ABioNet –enabling bioinformatics and big data research in Africa	Prof. MULDER, Nicola
11:30	[231] Bioinformatics gone Wild!	Dr DU PLESSIS, Morne
12:00	[147] Investigation of the interaction between selected divalent cations and the novel Schistosoma mansoni Universal stress protein G4LZI3.	Ms MASAMBA, Priscilla

BioInformatics: II - Satre (13:30-15:00)

-Conveners: Nicola Mulder

time	[id] title	presenter
13:30	[195] Computation and the future of biological research	Prof. JOUBERT, Fourie
14:00	[71] An Integrative Approach to Generating a Reference Transcriptome for Sugarcane	Ms JACOB, Robyn
14:20	[150] In silico identification and structural bioinformatics of druggable protein targets in Schistosoma Species	Mr ARULEBA, Raphael Taiwo
