

David Slama

Nvidia

David Slama serves as senior director of marketing for networking at NVIDIA, focusing on high performance computing, artificial intelligence, cloud native supercomputing, and the InfiniBand technology. Slama joined Mellanox in 2005 as a SW engineer, and served in several SW management roles until 2020 at Mellanox. He lead Cloud Solutions, Ethernet & InfiniBand SW management, storage, automation solutions, and upstream activities such as Ansible, Kubernetes, OpenStack, puppet, chef, and more. Slama holds a patent in the field of ML and AI for networking. He has an MA in government and a BA in management and computer science.
