HPC Cloud Use Cases and Best Practices

Thursday, 2 December 2021 12:45 (30 minutes)

This talk will discuss the current state-of-the-art of HPC cloud usage in various application sectors and will look at best practices and common pitfalls when adopting cloud infrastructures for HPC. The focus will be on non-trivial use cases. Concrete examples of existing cloud deployments will showcase what is feasible and advisable today. The talk will also give a perspective on trends and future developments.
